- 5. Truancy Officer Presentation**

Sharon Propst, Truancy Officer presentation:

Ms. Propst presented statistics regarding absenteeism in the District. She discussed barriers such as parent cooperation and made recommendations as follows: staff who can concentrate on family outreach, more social workers, and additional truancy officer hours.

Ms. Lima inquired about the disconnect - are families not making themselves available or are there barriers to accessing services? Ms. Propst answered that it is a mix of both. Parents are not always cooperative, but there is more success when meeting with parents very early on. Ms. Lima - "I am hearing early outreach is the key."

Dr. Earle inquired about family mental health as a barrier in the past and is this still a barrier? Ms. Propst feels the barrier remains the same. The most prevalent theme she is seeing with truancy related to mental health is student anxiety. Particularly amongst high school students. It was noted that a DCYF referral is the most successful way to assure good wrap-around services are in place. We need a better system to access these services.

II. Citizen's Comments - Pursuant to Policy BE, individual's comments are respectfully requested to be limited to 5 minutes

Pursuant to Policy BE, during citizen's comments it is expected that the committee and public observe the following etiquette: Comments from the public are to be civil, courteous and remain within the scope of School Committee. In consideration of all those in attendance, it is asked that comments are kept to a 5 minute limit. Lastly, members of the School Committee will recognize that the citizen's comment portion of the agenda is for the public to express their thoughts and concerns and we as committee members will refrain from interrupting speakers during their right to comment. Any person who wishes to make public comments and voice their concerns will be treated equally, with dignity and respect.

Chloe Martin: Would like to see an implementation of a GSA club in both middle schools. Discussed the lack of a meeting space for queer youth and ignorance of queer issues in middle school.

Eliza Adler: Would like to see NKHS implement a more comprehensive sex education program. Heteronormative curriculum is closed-minded and dangerous for students.

Alexis Adamonis: Need support for diverse communities. Urging administration to continue to create systems where there are none.

Johanna Reis: Queer students are not accurately instructed in sexual education, discussed disparity in the way it is taught.

Shea McCann: Discussed menstrual inequality - NKHS failing to provide free menstrual products and health education is lacking. We cannot control what parents do and do not teach - must ensure students have proper tools.

Ellie Arsenault: Voicing support of GSA clubs in both middle schools.

Pam Pinheiro: Does not understand the operational need for restructuring the Health & Wellness Advisory Committee. She questions whether that is the best use of administration's time and believes teacher's deserve the benefit of the doubt that they are implementing the new curriculum. Agrees with GSA's in middle schools.

Dustin Coleman: Discussed racial bullying occurring in schools. Hopes that we can put policies into place district wide. Requests that non-bias training become a part of yearly training requirement.

Carolyn Johnston: Principal of Quidnessett. Spoke about the diversity of her building and from her vantage point seeing the engagement position as vital. Supports Lydia for the role.

Lori Duffy: Clinical social worker - citing concerns about sex education curriculum. Sounds like we have some kids not feeling safe or important in our schools. Stressed importance of young people feeling seen and validated.

Lauren Annicelli: 4th grade educator at Quidnessett. Acknowledging need that exists for engagement coordinator position. Encouraged that NK thought to create this position and in support of Lydia for the role.

1. Building

Dr. Duva reported at the last Building Advisory meeting there was an update provided from architects regarding WMS media center and designs.

2. Health & Wellness

Report from Ms. Kennedy:

We met on Wednesday, May 13th. The meeting was focused on discussing the RIHSC Wellness Policy

Assessment. Several schools within the District were identified as performing below “Meeting Standard” in key wellness categories. To bridge these gaps and maintain our commitment to students health, this summary outlines mandatory communication practices and policy reinforcements required for the upcoming 26-27 school year:

Formalized Wellness Communication- Include a dedicated Wellness Policy update in at least 2 staff meetings per year to ensure faculty alignment. Create a digital “Suggestion Box” in school newsletters specifically soliciting parent and student input on wellness initiatives.

Optimized Cafeteria Environments- Verify all water dispensers, water fountains and filling

stations are fully functional and actively promote their use to students. Implement a “Menu Feedback” poll to involve students in healthy food promotions and menu selections.

Student Council involvement -The Student Compost and Recycling Project started with a presentation from the Forest Park Student Council on Healthier Lunches that included Recycling and Composting. We know the Student Council have good ideas and we want to help with executing them.

We also recapped all our success this year. Vaping Prevention and Education was our focus. Discussed how we can continue this in the future. Student Engagement & Visual Literacy – Middle School Vaping

Poster Contest and “What is in Vapes” display. Early Intervention – Tar Wars Presentation for the 4th and 5th graders. This was coordinated with the help of the Equity, Belonging and Community Engagement Coordinator, Principals and teachers and the Student Assistant Counselors. Our next meeting is Thursday, June 4th and Mr. Mezzanotte will be discussing with us the Health Curriculum to make sure current health trends and prevention needs are met.

3. Policy

Report from Ms. Lima:

The Policy Advisory Committee last met last night, May 18th.

We finished discussing the district’s appeal policy that we had started in December. This is the policy that outlines the process for students and parents/guardians to follow when they are seeking resolutions to differences. The proposed revisions will be on the agenda for School Committee review at the first meeting in June.

We briefly discussed the need for a change order procedure to allow the Superintendent to approve change orders during the building construction process. There is a question whether our existing policy that we just updated is sufficient or whether we need a new policy. Our attorney will review and advise.

We reviewed a draft of a new policy that will require school handbooks to be approved by the School Committee prior to their distribution to the school community to ensure that they are in alignment with district policies. The proposed draft will be on the agenda for School Committee review at the first meeting in June.

And we began discussions on a revision to the Student Conduct policy which has not been updated since 2012. Assistant Superintendent Mezzanotte asked the DEI Advisory Committee to review from an equity perspective based on the concerns raised in the equity audit around disproportionate and biased discipline. The policy advisory committee began work on incorporating their feedback with Rob’s proposed changes and the first draft of that will be sent back to Rob for him to review with his administrative team.

Our next meeting is scheduled for Tuesday, May 26th.
