If communication assistance (readers/interpreters/captioners) is needed, or any other accommodation to ensure equal participation, please call the Rhode Island Office of Energy Resources at Abigail Hasenfus at abigail.hasenfus@energy.ri.gov at least three (3) business days prior to the hearing so arrangements can be made to provide such assistance.

The Inflation Reduction Act authorized EPA to implement the Greenhouse Gas Reduction Fund, a historic \$27 billion investment to mobilize financing and private capital to combat the climate crisis and ensure American economic competitiveness. The Greenhouse Gas Reduction Fund will deliver lower energy costs and economic revitalization to communities, particularly those that have historically been left behind.

The Greenhouse Gas Reduction Fund Solar For All program is designed to achieve the following program objectives:

- Reduce greenhouse gas emissions and other air pollutants.
- Deliver the benefits of greenhouse gas- and air pollution-reducing projects to American communities, particularly low-income and disadvantaged communities.
- Mobilize financing and private capital to stimulate additional deployment of greenhouse gas and air pollution reducing projects.

Please submit Public Comments by 11:59 PM on Tuesday, September 12, 2023 using the following link: <https://ri.commentinput.com/?id=9QFW85rjD>

While the Distributed Generation Board will provide a virtual streaming option (login details at end of agenda) for the public, if there are technical issues with the streaming service at the start or during the meeting, the Board's in-person meetings will continue pursuant to the Open Meetings Act.
